

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

LISTING OF CLAIMS:

1-20. (cancelled)

21. (currently amended) Gaming furniture, comprising:

a container having sides and a top support element which define an interior space for receiving at least one video-game controller ~~and/or at least one corresponding video-game console~~; and

an erectorable and collapsible support platform arrangement having a support platform which is separate of the container sides and top support element for supporting the at least one video-game controller,

the support platform arrangement being connected to said container and being fully receivable within said interior space and foldable to project out of the container,

one of said container side sides being pivotally connected to another portion of the container and being outwardly and downwardly pivotable to provide a closable opening through which the support platform arrangement can be unfolded to project from the container, and

the unfolded support platform arrangement being further supported by a foldable leg member connected to said one of said container sides and extending between said one of the container sides and the support platform arrangement.

22. (previously presented) Gaming furniture as claimed in claim 21, wherein the support platform arrangement is foldable into and out of the container.

23. (previously presented) Gaming furniture as claimed in claim 21, wherein the support platform arrangement is hingably attached to a base of the container.

24. (previously presented) Gaming furniture as claimed in claim 21, wherein the said foldable side of the container is adapted to releasably support a further video-game controller.

25. (previously presented) Gaming furniture as claimed in claim 21, wherein the support platform arrangement includes an extendable and retractable articulated arm mechanism and a support platform attached to the end of the articulated arm mechanism, the support platform supporting the at least one video-game controller.

26-27. (cancelled)

28. (currently amended) Gaming furniture as claimed in claim 26 25, wherein the articulated arm mechanism is lockable when extended.

29. (previously presented) Gaming furniture as claimed in claim 21, wherein the support platform arrangement, when erected, projects above the horizontal plane of the top support element.

30. (previously presented) Gaming furniture as claimed in claim 21, wherein the support element is an openable lid.

31. (previously presented) Gaming furniture as claimed in claim 21, wherein the top support element functions as seating when the support platform arrangement is erected.

32. (previously presented) Gaming furniture as claimed in claim 31, wherein the top support element is invertable to act as seating.

33. (previously presented) Gaming furniture as claimed in claim 21, wherein the top support element is fixedly mounted as part of the container.
